STATINTL

MEMORANDUM FOR: [REDACTED]
Executive Officer, ODP

STAT

FROM : [REDACTED]
Data Base Systems Branch of SPD

SUBJECT : Request to Deliver Program to the FAA

STATINTL

On September 9, 1977, [REDACTED] received a request for the GIMANAL source program from Federal Aviation Agency (FAA) because their load module of GIMANAL would not execute properly. The Data Base Systems Branch has corrected the problem and has created a new GIMANAL load module for the FAA. A tape containing the revised module is being delivered to the FAA on November 2, 1977.

The following steps were taken to prepare the tape for delivery. (1) A sterile, blank tape was received from the tape librarian in the Ruffing Computer Center (VOL=SER=Z17769). (2) The load module was copied to the tape. (3) The tape was dumped and [REDACTED] verified that the load module was the only data set on the volume. A blank tape will be returned to the CIA from the FAA.

STATINTL

Enclosed is a copy of the letter of request from the FAA.

REFER TO: AAT-431D

SUBJECT: GIMANAL Program

FROM: Data Systems Manager

TO:

STATINTL

During the September meeting of the GIM2 Users' Group, discussions were held concerning the importance of the GIMANAL program.

Recently, we have experienced numerous data base failures due to incorrect chaining of overflow records. The cause of this error has been resolved. Use of the GIMANAL program on a periodic basis could help eliminate possible loss of data due to unknown chaining or character count errors.

Attempts to execute the GIMANAL program have been unsuccessful, resulting in an 806-4 abend (module - IBMBPIIA).

Request this office be provided a copy of the GIMANAL source program. Your assistance in correcting this problem will be appreciated. If you have any questions, please contact Maureen Kimberlin or myself at 426-8472.

Maureen D. Kimberlin

Mr. Beauford A. Bancroft
Chief, National Flight Data Center, AAT-430
Federal Aviation Administration
Washington, D. C. 20591

Dear Mr. Bancroft:

In response to your letter of September 14, 1977, we will be happy to consider your request for GIM II training.

Unlike many other federal agencies, we do not routinely offer EDP training to personnel other than our own. We are, however, always willing to help other organizations when the need exists and when our own student requirements permit.

The GIM II training that you requested is being given by our Training Staff this fall, but unfortunately the classes are now filled. We do intend to offer the same courses during the first half of 1978, and anticipate that there will be no difficulty in including your personnel in these courses.

STATINTL
The EDP training schedule for January through June of 1978 should be established within the next month. I have asked the chief of my EDP Training Staff, [redacted] to contact Ms. Kimberlin at that time and advise her of the dates that we will offer the training you requested.

STATINTL
One thing that we will require before classes start will be the name, date of birth, place of birth, and Social Security Account Number of each prospective student. [redacted] will work with Ms. Kimberlin on this and any other technicalities that will be involved.

I am pleased that you have called on us, and trust that the arrangements will be satisfactory to you. Please feel free to contact me if they are not.

14 September 1977 letter from Beauford A. Bancroft, Chief, NFDC, FAA.

RESOURCE PACKAGE & COSTS (If applicable):

EDP Training Staff

This paper is for your:

| Component/ Officer | Information/ Comment | Concurrence | Approval/ Signature | Initials | Date |
|-----------------------|-------------------------|-------------|------------------------|----------|------------|
| DD/A/ODP | | xx | | DW | 26 Sept 77 |
| EO/ODP | xx | | | GD | 27 Sept |
| D/ODP | | | xx | | |
| | | | | | |
| | | | | | |
| | | | | | |

DISCUSSION:

Of the requested training, only GIM II User Language is in high demand. The other courses are historically under-subscribed and thus will undoubtedly have ample room for the FAA personnel. I am recommending that we schedule the FAA personnel, even if it may dictate scheduling an additional two day GIM II Users course to satisfy in-house training requests.

Note from EO

*Your signature will constitute approval of this assistance
 I see no need to have any other record.*

Mr. Clifford D. May
Director of Data Processing
Headquarters, CIA
Room 2D00
Washington, DC 20505

Dear Mr. May:

This is to request your approval to permit participation by FAA personnel in your GIM2 Training Program.

Through our participation in the GIM2 Users' Group, we are aware of the CIA EDP Training Program. Our training requirements include the following:

- Data Base Concepts
- GIM2 User Language
- GIM2 Dictionaries
- GIM Procedural Oriented Language (POL)
- GIM2 Utilities

Our participation would range from 1 to 5 persons per course.

We would appreciate your favorable consideration. If you require any additional information, please contact Ms. Maureen V. Kimberlin, 426-8472.

Sincerely,

A handwritten signature in black ink, appearing to read "B. A. Bancroft".

BEAUFORD A. BANCROFT
